SIMAH AND QARAR

INDUSTRY SCORECARDS

What are Industry Scorecards?

SIMAH and Qarar have created a solution to give start-up fintech and smaller finance companies access to best-in-class scoring on a subscription basis.

Industry scorecards are the ideal springboard for embedding advanced analytics into the lending process — without the need for huge investment and lead times.

You will be able to make better informed lending decisions across your product range: micro loans, auto loans, personal loans, mortgages and credit cards.

As your analytics journey matures, this approach makes your transition to a bespoke scorecard much easier.

Office 220, Building 12, Dubai Internet City, PO Box 502390, Dubai, UAE

How does the solution work?

Simply — we combine our expertise and information from multiple lenders to create a fixed scorecard for you to use on a monthly subscription basis. You sign into the scorecard through an API and immediately access all the benefits.

Qarar develops, monitors, and maintains the scorecard which is hosted at SIMAH for participating members to access.

Welcome to the world of advanced analytics!

SUBSCRIPTION

- Fixed monthly fee
- Available to all SIMAH members
- API and user sign-in
- Provision of supporting documentation
- Implementation Advisory
